Developer Tools: Azure, Git, GitHub, VS Code, MS Office
Concepts: APIs, Agile Methodology

Experience

Easy Lane Stores   May 2023 – August 2023
Software Engineer Intern   *Houston, Texas*
- Enhanced the inventory management system by implementing a custom module to automate stock tracking, reducing manual errors by 30% using critical thinking.
- Utilized SQL queries to extract and manipulate sales statistics from the database.
- Demonstrated problem-solving skills by developing Python scripts to automate generating weekly and monthly reports that provided trends on product and sales performance.

Verizon Inc.   July 2021 – August 2022
Senior Sales Representative   *Houston, Texas*
- Exceeded monthly sales targets by 50% by consistently promoting and selling Verizon's products and services to customers.
- Demonstrated strong analytical and communication skills by resolving complex customer issues and providing technical support, resulting in high customer satisfaction and retention.

Projects

Full-stack Application
- Collaborated with a team to design a software application using an Agile Approach for a fuel company.
- Utilized HTML and CSS to design a client login, client registration, profile management, a fuel quote form with a pricing module, and MySQL for fuel quote history.
- Utilized PHP for backend systems.

Legacy Of The Lost World (2-D Game)
- Led a team to design a 2D game with basic mechanisms like running, jumping, and attacking.
- Worked as an engineer with a focus on the game's framework and game troubleshooting.
- Utilized Unity and C# to build the game.

Education
